LOCALETS

An event unique in the annals of subordinate Oddfellowship in Alberta was staged in Lomond on Thursday evening when the local I.O.O.F. and Rebekah lodge members entertained ten Grand Lodge officers. They were: J. A. Tully of Calgary, P.G.M. and grand representative to the sovereign grand lodge, O. E. Tidsdale of Calgary, P.G.M. and grand lodge secretary, H. J. Adames, grand lodge treasurer and also secretary of the Grand Encampment, Major Barnett of Lethbridge, grand lodge warden, R. B. Morden of Lethbridge, P.H.C.P. of the grand encampment, Mrs. R. B. Morden, grand warden of the Rebekah Assembly, W. M. Armstrong of Lomond, grand lodge guardian, Mrs. A. Morden of Bassano, P.G. president of the Rebekah Assembly, S. W. White of Lethbridge, D.D.G.M. The Lethbridge friends brought a large retinue of visitors with. Both lodges went through the opening and closing exercises and the visitors were introduced and welcomed, D.D.Ms Vern Davies and Mrs. Williamson assisting in the exercises. After this part of the proceedings the visitors were invited the address the assembly. A couple of hours passed quickly under the spell of wit and education. The affair was brought to a close by the serving of an abundance of dainty luncheon. The local lodges were highly complimented on the progress they have made and from all appearances the visitors were

NOTICE OF DISSOLUTION OF PARTNERSHIP.

To whom it may concern:—
Notice is hereby given that the co-partnership heretofore subsisting between the undersigned as Butchers, under the firm name "Haley & Henson" of Lomond, Alberta, has this day been dissolved by mutual consent. All debts due the said partnership are to be paid to E. G. Haley at his office in Lomond, and all partnership debts to be paid by him. Lomond, Alberta, July 14th. 1919

well pleased by their hospitable reception.

G. D. Salter has received his stock of new fall millinery.

Millions and millions of the army worms are marching over everything in the country, and their chief table delicacy appears to be russian thistles, though they do condescend to attack the garden beets and carrots. Some go so far as to say that they eat the eggs of the cut-worm, but of this we have no definite knowledge. Anything that has a stomach for raw russian thistles should at least relish a cut-worm. Queer, isn't it, how nature provides for mere man. When the scourge of thistles became so great as to be nearly out of the bounds of control along comes the worms to help out. Three weeks is their allotted span of existence, so as long as they will eat the thistles we will put up with the muss.

E. G. Haley is branching out in the grocery business in conjunction with the meat market. A large and complete stock of popular lines will be put on the shelves and Mrs. W. A. Smith has been engaged to look after the grocery department.

Mr. and Mrs. W. A. Teskey and family were up to Okotoks over Sunday, letting grandpa and grandma a chance to see the new baby girl.

J. C. Jensen informs THE PRESS that he is going to provide the townspeople with first class drinking water at 75c. per barrel, and will be glad to arrange a convenient day of delivery with his patrons.

Monday is Labor Day and a legal holiday. Don't shoot ducks unless you have a license.

Since page three was printed THE PRESS learns that Miss Stewart of Calgary has been engaged to teach the primary room in the Lomond school.

W. H. Smith made a business trip Lethbridge this week.

We see by the papers that Dick Neil has been riding at the Gleichen and Calgary stampedes.

Rev. Bell drove to Lethbridge on Friday.

Carman Haley and Frank Stephens of Badger Lake drove up to the Calgary stampede on Thursday.

We hear that in cleaning out "spring" a carcass of calf was found imbedded in the mud. So we have been using veal soup "a la spring."

Tom Chapman has received the stationery to be used in the preliminary work of organization of an irrigation district. Outside of propaganda nothing definite can be accomplished till the survey data is compiled.

The Toronto Saturday Night says that William Lyon Mackenzie King will be Canada's next premier. Well, if has an organization keen enough to pick up public opinion he may attain that honor sooner than expected.

Meighen and Calder state the Dominion Government will finance sufficient relief for the drouth areas. Look for election writs soon.

The Soldier's Settlement Board claims to have already loaned returned men \$23,000,000.00. It is better to loan them this much money to establish themselves into independent occupations than to buy this much ammunition to shoot away.

Foster says this dry spell will last till the first of May next year. Well, old man, don't let it run any longer than that.

NEW Grocery Store

I am placing in connection with the Lomond Meat Market a complete stock of groceries. Business will be done on a strictly cash basis--- BUT---the prices will be marked on a basis that need provide for no credit-system losses.

NOTES

It does one good to occasionally run around a bit and see what other people are doing, and this year when we in Alberta are under the cloud of misfortune the contrast in some parts of the outside world is very decided. When we wound Old Dorothy up on August the second and pointed the radiator toward Winnipeg it sure was a long and unknown trail that confronted us. Alberta is perhaps the most fortunate country in the west as far as roads are concerned. At least you can travel, in dry weather mile upon mile on natural prairie trail with less wear and tear on your Lizzie than on some of the city pavements we drove over. The further east you go the rougher the roads get. And don't run away with the idea that they neglect to spend money on their roads either. The road builder's chief ambition seems to appear to be to pile the dirt in the middle of the road allowance and the higher the pile and the rougher the dump apparently the better pleased he is with the job. We drove a good many miles at an angle of thirty-seven degrees to escape the necessity of riding the humps. The best stretch of built up road we met was between Taber and Medicine Hat—which again goes to prove Alberta leads in the matter of roads. Down around Moose Jaw they are a little more progressive than the ordinary. They at least have the main roads well marked so that the traveller need stop and enquire at every corner and enquire the way to the next beanery. Manitoba has the least and the poorest marked roads of anywhere on the trip. Right around Winnipeg it

is hardly safe for a motorist to venture off on anything but a main trail and even that is not what one would term a good road. If those people ever moved west they would die of sluggish liver the change would be to severe.

Down around Moose Jaw and Regina there are some very good stretches of crop. In some districts the hail touched them pretty hard and in others the black rust interfered with the threshing returns, but nevertheless there will be will be good prosperous times for the average farmer. In some sections of Southern Manitoba covered on the trip excellent crops were seen, and also some evidence of black rust plague. Times were good there and reminded one of 1915 16 17 out here—everybody driving cars and celebrating in cars in the evenings but with all their prosperity they lack the evidence of permanent buildings observed in newer Saskatchewan and also in Alberta.

As far as the stock is concerned, the surplus hay south of the main line is very limited. Even where grazing was apparently good the stock did not show up to any great advantage. The grass must be soft. As to relief to our drought stricken areas we must look to other districts.

Speaking of prosperity and all such sort of thing one would naturally feel after stopping in some of the towns and cities one would naturally feel that the inhabitants would have to be prosperous to uphold the H.C.L. Alberta gives the best value for the money in hotel accommodation, and nearly every line of general merchandise the prices soar when you enter the city area in Saskatchewan even unto Winnipeg. Perhaps in Winnipeg they are trying to get even with the Bolsheviks. At any rate labor must demand a high wage to be able to exist in these cities.

The Lomond Consolidated Schools will re-open on Tuesday, the 2nd., despite many rumors to the effect that no teaching staff had been engaged. No such luck for the kiddies! It is to be hoped that the coming year will be as successful as the one just closed. With the exception of the flue period the school was open all the term, and every thing considered very satisfactory progress was made by the school generally. Miss Atkin, who has accepted the position of principal, taught last year at Midway. Miss Kerr of Leamington will teach in the intermediate room.

"A Joan of Arc Machine"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities"—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb debris and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France	-	700 cars out of 1,000 were Fords
In Italy	-	850 cars out of 1,000 were Fords
In Egypt	-	996 cars out of 1,000 were Fords
In Mesopotamia	-	999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record in every theatre of the war remains the same. It will be in the Ford you buy.

Ford Runabout \$660. Touring \$690. On Open models the Electric Starting and Lighting Equipment is \$100 extra. Coupe \$715. Sedan \$1,175 (closed model prices include Electric Starting and Lighting Equipment). Demountable rims, tire carrier, and non-skid tires on rear as optional equipment on closed cars only at \$45 extra. These prices are f.o.b. Ford, Ont., and do not include War Tax.

Buy only Genuine Ford Parts. 700 Canadian Dealers and over 2,000 Service Garages supply them.
